

CHAMPIONSHIP ADVISORY NOTICE No. 2 – March 2025

This advisory note is applicable for cars with a last known rolling road test between March 2020 and March 2022.

By exception, an extension to date of test in regulation 3.7.1 will be accepted back to March 2020, this allows a car to be eligible for Championship Class registration without requiring a retest for 2025.

Any 'new' car seeking to enter a Championship Class 1-6 is still expected to be tested in advance of first event and remains the responsibility of the driver to organise using the conformance of test procedure.

To take effect for cars concerned [identified in published Class Allocation document], the driver must write to the respective Class Representative declaring that since the date of last test the car has had no change to engine specification or rebuild.

For transparency, the Class allocation document will maintain the date of last known test. Should the Technical Committee or Class Representative request a specific car is checked during the season, I will issue a bulletin to inform all registered drivers of the car queried.

Draft Regulation:

3.7 ROLLING ROAD:

3.7.1 **Class 1 – 6:** to ascertain the mean power-to-weight of a car, Championship registered drivers are required to present their car to a Championship approved rolling road every 3 years (or following an engine rebuild), will be notified of the requirement for a Rolling Road test no less than one month before their first event entered of the season. A list of last known test dates will be published on the Championship website, it is the driver's responsibility to arrange the test, obtain a signed declaration of setup conformance and submit to the Technical Secretary no less than one month before their first event entered to be allocated a Class.

Class H: exempt from rolling road tests

3.7.2 In exceptional circumstances the rolling road requirement may be temporarily and briefly waived until a time that the requirement can be reinstated. This will be confirmed in writing by the Championship Co-ordinator after discussion and approval with the Race Committee.

Class Representatives: can be contacted via Championship Co-ordinator as required.

Class 1: Keith Ahlers

Class 2: Louis Ruff

Class 3: James Sumner

Class 4: Kelvin Laidlaw

Class 5: Chris Bailey

Class 6: Chris Bailey
